THE WEATHER.

LOS ANGELES SIGNAL OFFICE, NOV. 27.—At 4:00 a.m. to-day the thermometer registered 49; at 12:07 p.m., 77; and at 7:07 p.m., 79. Barometer for corresponding periods, 30.17, 30.30, 30.30. Maximum temperature, 79.0; minimum, 49.0. Weather at 7:07 p.m., clear.

The Times.

Office—Temple, Main and New High.

DUBLIN is all torn up.

SAN FRANCISCO rolls up another brutal murder.

AN addition to our usual telegraph budget will be found on our 4th page.

THERE was a bloody encounter between partners at the dull little mining town of Hackberry, Ariz., yesterday.

THE boom has hit Santa Ana. If the boom doesn't grow like scandal in that fertile valley, it will be the only thing that doesn't.

JULIUS ENRIET, lately from Chicago, is visiting with his family at the home of F. J. Woodbury, about four miles from Pasadena.

It is every Republican's duty to attend the primaries this afternoon. If the printed ticket does not seem good to him, he has only to scratch it until it suits.

The world's admiration for the English "nobility" will go up another notch on the strength of this morning's dispatches. It was very, very high already.

The people who are making the most to do for "harmony," and most loudly calling for the stay-at-homes to come out and vote at the coming city election are taking very poor steps to advance the cause they orally advocate. The stay-at-homes are hardly likely to be enthused by a repetition of the same tactics which caused their disgust before.

The notes of progress from all Southern California are unanimous and flattering. It is safe to say that no other section in the United States is showing a comparable growth. All Los Angeles county is one giant boom. San Diego undoubtedly comes next, and things are growing like wildfire there. San Bernardino is booming, and Santa Barbara and Ventura jump so fast that the next-door neighbors have to look twice to recognize them.

AN important move in the railroad world is that declared by this morning's dispatches to be imminent on the part of the Atchison, Topeka and Santa Fé. The Texas, Santa Fé and Northern is now in actual process of construction from Santa Fé to a junction with the Denver and Rio Grande at Espanola, 25 miles from Santa Fé, on the Rio Grande river. It is now stated that the road is to be built at once in the opposite direction from Santa Fé via down past the silver mines of Carbonateville, the vast deposits of superb anthracite and bituminous coal back of Cerrillos, the rich placers and quartz veins of Golden, and through the Tjeras canon—its rich in minerals—to a junction with the Atchison, Topeka and Santa Fé at Albuquerque. It is probable, though not so stated in the dispatch, that the road will also branch to the southeast, passing the rich White Oaks mining district and reaching the vast cattle ranges of Texas.

Court Notes.

The information against H. Katz was dismissed yesterday.

John Lattimore got a verdict of \$25 against J. J. Baldwin yesterday.

Training the President.

Since he came to the White House the President has been steadily gaining flesh, but he now weighs fifty pounds more than he did when he was elected. He does not take any exercise. He is getting so fat as to be uncomfortable, as well as ungainly, and has been in consultation with a doctor of the Swedish massage school. This doctor does not prescribe any drugs, nor does he use the Banting system of dieting. He simply recommends the movement cure, and his treatment of the President is very funny. First the doctor makes him lie flat on his back on the floor, stiffen himself out, with his arms down at his side, and then raise his legs, and then raise his body on the hands and toes. After this has been tried, the patient is to stand on the tips of his toes and fingers, and make motions as if he were swimming. By going through this process three times a day, at first only a few minutes, and then longer, as the muscles of the stomach will permit, it is claimed that a fat man can reduce his flesh with remarkable rapidity.

Ship on Fire.

GALVESTON, Nov. 26.—The British bark Drummond, 805 tons, Capt. Thompson, for Liverpool, lying in the outer roads awaiting the balance of her cargo, was discovered to be on fire this morning. In a few minutes the vessel was wrapped in a sheet of flames, including 1300 bales of cotton. The goods grasped heretofore were lost to the sea. The vessel will prove a total loss. Part of her cargo can be saved in a damaged condition.

Will Demand a Recess.

SAN FRANCISCO, Nov. 26.—It is stated that H. H. Pease, Republican candidate defeated for the office of Sheriff, will contest the seating of William McManis and demand a recess before the courts. The papers in the case will probably be filed on Monday.

POOR BLIND TOM.

His Octogenarian Mother Says He is Crazy,

And Makes Formal Application to Have Him Adjudged Insane.

She Says Tom Knows Nothing of the War or of Slavery.

The Wonderful Pianist's Youth—Born Blind and a Slave—His Former Owner Remains His Tutor—Adjudged Insane by a Jury.

By Telegraph to The Times.

New York, Nov. 26.—[By the Western Associated Press.] Dr. James W. Hargrave, as commissioner in lunacy and a sheriff's jury heard testimony today in an application of Charity Wiggins, an eighty-year-old colored woman, who is mother of "Blind Tom," the celebrated negro pianist, to have her son adjudged insane and incompetent to care for himself. Blind Tom is now in Virginia under the care of Gen. Jas. N. Bethune, who owned the Wiggins family while in slavery and had charge of Blind Tom for twenty years. The Virginia courts decided in a similar application in this State that Tom was a resident of this State, and accordingly Judge Donohue, of the Supreme Court, granted the application of Mrs. Wiggins for a commission to decide his sanity. Mrs. Wiggins is suing Gen. Bethune for an accounting of money he has received during the last twenty-three years from exhibiting Blind Tom in this country and in Europe. Mrs. Wiggins in her testimony, told she had twenty children, and eight are dead. Four died before the war. Tom was born May 24th, 1849, in Georgia. He was born in slavery. Slaves could not legally contract, but Tom's mother had been married. Tom left Georgia directly after emancipation. She said that Tom did not know the difference between right and wrong and does not to this day. He was bound, never could dress himself and always had to be led around. He knew nothing about the war and witness thought he knew nothing about slavery. When he was 2 years old if he heard a dog bark, a rooster crow or a bird sing he would imitate them. The family were astonished by his trial of a piano. Joseph Eubanks, treasurer of Blind Tom Company, was with him for twelve years. He was a powerful man. He was offended with the professor's music, and began to rub his hands together. Tom knocked the professor off of the stool and threw witness out of the room. The company took in an average of \$1000 per week. Tom's mother said her profit was about \$2500 per year. Tom never received a cent from the company. Lawyer Albert A. Lerche, of Virginia, testified that Tom was insane and had no property except an interest in a suit for \$2500 in Virginia, his flute, worth \$175, and \$10 worth of clothing. The verdict of the jury was that Blind Tom was mentally unsound and incapable to manage his own affairs.

IN A BAD FIX.

A Lawyer of Standing Sued for Embarrassment.

New York, Nov. 26.—[By the Western Associated Press.] Lawyer Henry D. Garrett, who was arrested some days ago, was arrested today, charged by Mrs. Josephine Charpentier with the embezzlement of \$15,000. Intrusted to him by her with which to effect a settlement with claimants against the McCordie estate, in California. He is a member of the bar in high standing. He was married in July to a prominent politician. Complainant alleges that Mr. Garrett was engaged to marry her daughter Eugenia, and through that fact she was led to trust him with great sums of money. He is alleged to have represented to Mrs. Charpentier that the claims of heirs could be purchased for \$1000 each, and as he was to go to California on business he could settle the claims while away. Mrs. Charpentier alleges that she has since been told by Mrs. Pearl one of the heirs that the claims were purchased by Garrett for \$15 each. To this complaint Mr. Garrett replies, charging on the contrary, that he had been told by her mother that she had received \$15,000 from the McCordie heirs. The latter, in court today, swore that she had been told by her mother that she had received \$15,000 from the McCordie heirs. The latter, in court today, swore that she had been told by her mother that she had received \$15,000 from the McCordie heirs.

Railroad Weather Service.

OMAHA, Nov. 26.—The Union Pacific Railroad has completed arrangements to establish a weather service over its entire system similar to that in use by the Federal Government. There are to be thirty-two stations; nine will be the first-class, equipped with full sets of observing instruments. There will be nine second-class stations. Two observations will be taken each day at 4 a.m. and 4 p.m. and reported to headquarters at Omaha. The trains will be equipped and operated according to weather reports. These reports will be materially in the safe shipment of live stock and perishable goods. The office to be put in charge is Lieut. Joseph S. Powell, of the Government Signal Service, whose salary is to be paid by the government; all other expenses to be borne by the railroad company. The Chicago and Northwestern and Central Pacific have been invited to cooperate with the Union Pacific so as to make a thorough railway weather service between San Francisco and Chicago.

EXCITEMENT IN DUBLIN.

Rumors of Repressive Measures by Government.

DUBLIN, Nov. 26.—[By Cable.] Michael Hicks Beach, Chief Secretary for Ireland, has been busily engaged all day at Dublin Castle conferring with the legal and military authorities. The city is agitated by rumors of the wildest character relating to the government's intentions. A great meeting of Nationalists, which is called to assemble in a suburb on Monday will, it is thought, be prohibited. Officials of the Irish National League do not appear to be disturbed. They are all pursuing their avocations in their ordinary ways, and all of them say they have no idea of what the government has decided to do, if it has decided to do anything.

The Irish Times (Conservative) says: "The government has resolved to promptly suppress all anti-rent and other illegal combinations; also that John Dillon has been summoned to appear in court on Monday next, and show cause why criminal information should not be sworn against him for sentiments he recently expressed in an encouraging sense to the National League, the example of those on the Clanricarde estates, in County Galway. Dillon, in his speech, advocated general submission to the law, rather than pay rents, as the best means for bringing the landlords of Ireland to terms with the occupiers of lands in Ireland." The paper's statement is cited to explain was delivered at Woodford, on October 18th.

The Nationalists have decided to hold meetings in different parts of Sligo, Galway and Tipperary, in order to evade the government's prohibition. The Dublin Telegraph says that orders have been sent to Athlone to keep 100 cavalry and 300 infantry in readiness for duty. It is rumored that the objects is to arrest the trustees appointed under the United Ireland plan, to whose charge rents of local tenants have been committed.

THE GERMAN WAY.

BREITLIN, Nov. 26.—The government has decided to dissolve the Reichstag if it rejects the military estimates.

THE BRITISH PARLIAMENT.

LONDON, Nov. 26.—Parliament will meet on January 13th. The government will ask for the whole time of the House to deal with the procedure rules.

NINE YEARS' IMPRISONMENT.

BREITLIN, Nov. 26.—Editor Prohl has been sentenced by the supreme court to nine years' imprisonment for treason. It was proved that he supplied France, through Captain Sarauw, with German military and naval secrets.

A MEXICAN REFORM.

TRANSIT DUTIES THROUGH THE STATES TO BE ABOLISHED.

CITY OF MEXICO, Nov. 26.—[By the Western Associated Press.] An important and economic reform was formally proclaimed to-day. A movement has been going on for some time for putting an end to the system of taxation which the States collected duties on national and foreign merchandise in transit through their respective territories, a system which has been pronounced by railway managers most harmful to the development of the internal commerce of the country than any other plan that could have been devised. In May last a constitutional amendment was submitted to the States forbidding the imposition of transit duties on the products of other States and on the exportation of merchandise, either manufactured articles or products of the soil. The amendment also forbade the States to assign special rates for the conveyance of goods of native origin as has been done by some of the States. Light import duties on foreign goods than will be fixed by Federal law. It is expected that Congress will fix uniform rates of 5 per cent ad valorem. This amendment having been adopted by a majority of States, has received the sanction of both Chambers of Congress, and was today proclaimed in the usual form, being read at various points in the city, and copies of it posted on the walls.

The S.P.'s New Purchase.

SAN FRANCISCO, Nov. 26.—Assurance is given that the ownership of the South Pacific Coast Railroad by the Southern Pacific Company will not result in an increase of rates, nor will it diminish the facilities for traveling. If any change follows the traveling accommodations will be increased. It is said that the narrow-gauge line from Alameda to San Jose, which traverses a marsh along the shore of the bay, will be eventually abandoned, as the road is regarded with great favor by the business community as one of the chief acts of the present administration.

A DIVORCE CASE.

More Disclosures of English High Life.

A Brother of the Queen's Son-in-Law Sued for Divorce.

His Wife Charges Him with Cruelty and Adultery.

Lord Colin Campbell Sues the Family Doctor—While Lady Campbell Knows Something About a Housemaid—Some Pleasant Disclosures.

By Telegraph to The Times.

LONDON, Nov. 26.—[By Cable.] An action for divorce, brought by Lady Colin Campbell against her husband, Lord Colin Campbell, fifth son of the Duke of Argyll, came up for hearing to-day. The plaintiff's solicitor is Charles Russell. Russell, in opening the case for Lady Campbell, said his client petitioned for a decree of absolute divorce from Lord Campbell on the ground of cruelty and adultery. The lawyer continued: "After the marriage, in 1881, the couple went away on

"A MELANCHOLIC HONEYMOON, the groom being attended all the time by a hospital nurse. This was because his lordship was afflicted with a disease. Of course the plaintiff could not have had any idea of what ailed her betrothed husband, and when she became aware of the nature of his malady she decided to remain with him only as a companion. In April, 1883, Lord Campbell suggested that she should have improper relations with his physician, Dr. Bird. Lady Campbell thereupon refused to have an intimacy on the part of defendant, and he suspended her money allowances. She then appealed for a judicial separation. Lord Colin made a reply denying all her charges. In March, 1884, plaintiff obtained a decree of separation. She repaired to her father's house at Florence and returned to England. Russell then detailed the grounds of the charge of adultery which plaintiff made against defendant. Russell said the lady was in a position to successfully meet all counter charges.

The first witness called by plaintiff's counsel was Lady Miles. She deposed substantially as follows: "She told Lord Campbell in 1883 that Lady Campbell had resolved to come to live with her and her wife, and her reason for such decision, but would continue to maintain the kindest friendly relations toward him, and refrain from all mention of separation in other respects from him. Lord Campbell was shocked at the information; he protested against her wife's decision, and said if she would recall it he would let Lady Campbell have her own way for a period of two years, and would trust her with affection. Witness subsequently visited Lord and Lady Campbell in London. She found Lady Campbell suffering intense pain, and Lord Campbell explained by saying: 'There has been foul play upstairs, and Lady Campbell has had miscarriages.' Lady Miles protested that this could not be so, and defendant affirmed that it was; that he had kept his promise relating to the two years, and had been deceived. He straightway accused Dr. Bird of having

TAKEN ADVANTAGE OF HIS POSITION.

Dr. Bird denies the accusation and refuses to longer attend Lady Campbell unless the accusation was withdrawn. A family council ensued. At this Lord Colin admitted that he had not meant all he had said, and asked Lady Miles to apologise for his conduct to Dr. Bird. At the same time he complained of the length of time Gen. Butler remained when he called upon Lady Campbell. Witness continued to protest that at Lord Colin Campbell's request she had consented to be his witness, so far

OUR NEIGHBORS.

Santa Ana.
SAINT ANA, Nov. 25.—[Correspondence of THE TIMES.] A brisk shower of rain fell Saturday night.
 The cars for the street railway have been at last, and are running between the depot and town and to Tustin, but will be some days before they will be on a regular line.

A genuine boom has struck Santa Ana. It is no mushroom growth, but it is coming to stay, and the classes of business and is taking everybody to the utmost to keep up the spirit of the times. Real estate to the value of \$120,000 has been sold in the last ten days. These are no sales, nor are they the selling of big ranch, vineyard or orchard, but small tracts for homes and other uses. Orchards, vineyards and ranches lying near town are being divided up into lots and placed on the market, in obedience to the demand for the most desirable lots. All the real estate firms are doing a good business. The prices asked are not high, but they pay the seller and satisfy the purchaser. Prices, however, are advancing as the demand increases. Very many of the purchasers are newcomers who have come to make their homes among us.

J. W. Gardner, a music dealer of Los Angeles, has opened a branch office here and will handle real estate as well as musical instruments. Mr. Moye, of Grand Rapids, Mich., will have charge of the office here. The boom seems not to stop with real estate. Merchants are all doing well. Large quantities of goods are constantly coming and being sold at a rapid rate. Our streets are crowded with vehicles and the walks with pedestrians, all wearing the air of business. Even our editors are catching the spirit of progress. Baker, of the Standard, has laid aside his bohemian and his bournism, and his spirit is no longer flamboyant, but is as a little lamb, and he is giving us a live paper. The Blade editors have sharpened their blades that they no longer grind out poetry, but whittle it out to suit the times. The Blade is an able and well-edited paper, and gives general satisfaction. Waite, of the Herald, continues on in his straightforward course, knowing nothing and caring for nothing save the development of the city. He is happy in his new office. The building boom continues. Every where may be seen new houses going up, and yet the demand far exceeds the supply. Builders are seeing a pile of lumber on a vacant lot conclude there is to be a house soon. They hunt up the owner, and, if possible, engage the house for a year. The new business blocks are being completed.

The spirit of progress has reached our neighboring city of Tustin. Fairbanks & Fossett, two new men from the East, have opened a real estate and insurance office, and report numerous sales of property.

A new livery and feed stable has been opened by D. T. Keim. Mr. Wiggins is about to commence the erection of a two-story building for store and hall purposes.

Mr. Glenn, of Oakland, is improving his twenty-acre property close to the town.

Inquiries for property are numerous. Tania needs a good hotel, or boarding house, about as much as anything, and the right party will secure much help and encouragement to start this much-needed enterprise.

Heavy shipments of raisins and wine are now going forward from our depot, and much freight goes to San Francisco by steamer.

Paradise.

PARADISE, Nov. 25.—[Correspondence of THE TIMES.] R. Little is preparing to build a costly residence in the Highland district, near Mr. Swartwout's.

The members of the Christian Church will hold regular religious services hereafter in the Presbyterian Chapel, beginning Sunday at 11 a.m., when Rev. Mr. Herriman, the minister, recently suggested by the society, will preach. About \$1200 has been raised for building a church on the lot on De Lacey street owned by the Christians.

Charles Higgins is putting up accommodations for a greenhouse and nursery depot on the lot back of Clark & Higgins's office.

Justice Gardner united in marriage, yesterday, Stephen Connelley and Miss Eva Garrison.

The entertainment for the benefit of the public library last evening was a decided success, and the attendance was very large.

Patrick Given, L. D. Young and Geo. Bell were arrested yesterday on charges of being drunk and disorderly. Given and Bell were sent up for five days and Young put up \$5.

Charles T. Smith has received his commission as postmaster and will take charge of the office December 1st. The present assistants will remain with him.

E. S. Frost is building a two-story 2500 sq foot restaurant and lodging house on the railroad, just south of Colorado street. The lessee is not yet known.

J. E. Clark has removed his newspaper press into a building in the rear of the future office put up for the purpose. He has bought a new Gordon jobber and an outfit of job material, which will be on hand in a few days.

The number of strangers in town increases with each incoming train, and the property market is remarkably active.

Messrs. Blunt & Trussell are the contractors. They build it for \$2500 and it is to be completed by January 31, 1887. Considerable real estate is changing hands here. Those people who thought Mr. Hosmer crazy when he subdivided his 25-acre ranch into lots, don't think so now. Somewhere about eight thousand dollars' worth have been sold up to date and lots which were sold three months ago at \$200 are now just double that.

The arrival chorus was played in our blacksmith shop for the first time Monday last; the artist is Mr. Jacques, of Massachusetts.

Several carpenters "arriv" on Carter's last evening, and they had hardly time to get off their good clothes before they had invitations to go to work.

Mr. Conant, of Massachusetts, is now building a fine house and stable on the corner of Baldwin and Esperanza avenues.

Three new members joined the Congregational Church last Sunday. J. W. Goodwin and family are now keeping house in their cottage, corner Central and Auburn avenues.

A large social party gathered at the Ocean View House last evening.

Westminster.
WESTMINSTER, Nov. 25.—[Correspondence of THE TIMES.] Samson Edwards and wife have returned from the East where they have been visiting their old home and friends.

Rev. John B. Rubey and family arrived from Missouri last week, and have taken possession of their new home on the Wolfe place. Mr. Rubey is an invalid, and hopes for restoration in this healthy climate.

John O. Peterson has sold his 40 acres to J. H. Ellison, unimproved; consideration \$2000. As the tract contained about 25 acres peat and corn land it was a bargain for the buyer.

Joseph Caldwell, the well-bored, has built a new barn.

Jesus Davis has brought down a carload of hogs from San Geronimo to be fattened on Western ranch.

George Strobel seems to have suddenly disappeared, leaving several mourners. His friends hope he will return.

Work on our roads has been vigorously prosecuted this season. They are now much better than ever before, and will stand a wet winter.

William A. Beckett reports three vines of a watermelon-squash that yielded, respectively, 184, 110 and 90 squashes, averaging twenty pounds each. The largest vine measured seventy feet across, and in one place the squashes grew three deep for want of room on the ground. He also has a better that gives over four gallons of rich milk a day now over a year after calving.

Mr. Beckett is a reliable man.

Wise men elsewhere say that the railroad will not go near Westminster. Wiser men still, say that two railroads will cross this plain near us in the near future—the Riverside Railroad, on its way to San Pedro and the new San Diego Railroad, on its way to Ballona harbor. We will welcome them both, even if they cut us all to pieces. There is no section of the county near Los Angeles, where such large tracts are waiting for subdivision and settlement as here in the arid belt. A colony able to handle a \$55,000 tract of over 1300 acres, could locate itself now with great profit.

Dairy farms and deciduous fruits will pay better and better as the foothills become closely settled. R. S.

Garden Grove.
DELAYED LETTER FROM THAT PROSPEROUS SETTLEMENT.

GARDEN GROVE, Nov. 21.—[Correspondence of THE TIMES.] We were visited last night by the first rainfall of the season. About three-fourths of an inch of rain fell during the night, accompanied by a high wind, making one think an Eastern tornado had struck us for certain.

Real estate transfers are taking place very frequently here, and new people of the best kind are coming among us. John Nelson recently sold fifteen acres of orchard land to Mr. Bush, of Oakland, who is soon to put a house on it.

Mr. Eells has just arrived fresh from Kansas with plenty of stock to begin ranching in good style. He is a brother-in-law of L. H. Jones, who came here last spring from Los Angeles. S. Smith, another gentleman who recently came here from Los Angeles, has about completed a fine two-story house, built by Farrington & Dunn. Another house is to be built by Prof. James, from San Francisco, who has land here which is set to vines in full bearing, from which a fine revenue was realized this season.

There is talk of a number of other houses being built this winter to supply the demand of incoming families.

C. J. & J. J. Hough are in the midst of a successful season of ruin making, being now engaged in packing, employing a large number of hands.

The same can be said of A. J. Chaffee, who is the pioneer in the business in this locality. E. G. Ware is also engaged in the same enterprise.

J. D. Chaffee, who has been in San Francisco for six months past, prosecuting his medical studies to a finish, and who has been very near death's door since his return, is much better, and hopes are entertained of his speedy recovery.

O. Witham, our village blacksmith, who has been in very poor health for a long time, is much improved, and hopes soon to be able to resume business.

Our school is flourishing under the direction of Mr. Kelsey and Miss McCoy.

Orange.
PROGRESS ALL ABOUT.

ORANGE, Nov. 25.—[Correspondence of THE TIMES.] More new houses are going up in town.

The fine shower Saturday night washed off the dust, and made vegetation bright and lovely.

The railroad being built down the Santa Ana valley is giving employment to many from this section. The employers pay \$4 per day for men with teams.

Union services were held on Thanksgiving in the Presbyterian Church, and the sermon was preached by the Baptist minister.

The Orange Bank will commence business as soon as a suitable building can be prepared. The capital stock is \$100,000, and with its competent board

of directors, of whom Mr. Palmer, of Santa Ana, is president, it will certainly prove a financial success.

For some time the business management of the Orange Railroad station fails to give general satisfaction, hence the bulk of the raisins and other products from this section are hauled to Santa Ana for shipment. It is hoped that there will be a change very soon.

The directors of the water company are having the main ditch above the tunnel overhauled and repaired. They are putting in two large gates, every timber of which is dipped into boiling brea to prevent rotting. Several new bridges have also been built over the large canal.

This is the Last Day and the Last Time of our special bargains.
 We want the public to understand that this is the last day on which we will continue to sacrifice the goods we have been slaughtering the last few weeks. Remember this is the last day.

Remember this is the last day.
 Ladies' opera slippers, 75c.
 Ladies' corsets, kid, button, \$1.50.
 Children's goat-slip shoes, button, 75c.
 Men's Congress gaiters, \$1.25.
 Men's calf kid button shoes, 50c.
 THE LAST AND ONLY DAY.
 SANTA ANA, CALIF., NOV. 27, 1886.
 Lewis Bros., 101 and 103 North Spring st.

Real Estate.
REAL ESTATE FOR SALE.

W. P. MCINTOSH,
 122 N. Spring st. Temple block.

COUNTRY PROPERTY.
 \$5000 for 40 acres near San Gabriel depot; excellent soil for vines and fruits.

Five lots and twenty-five tracts in old vineyards, within a few hundred yards of where the property is divided into town lots, near the depot.

\$7000 for 10 acres just south of city limits, on San Gabriel; near the depot. 3000 ft. of water, windmill, barn and chicken house; ground in fruit and alfalfa.

Many other places too numerous to mention.

"Hello!" "Hello!" "Well, say that you, Lindley?" "Yes." "Well, say, I guess I'll have to come around in a day or two and take a look at the tract I say you advertised a day or two ago. I just think those Grand ave. tracts are the choicest property in the city. Call to-morrow, guess." "Hello!" Say, don't know but I have something down on the San Pedro road, only three or four miles out, that I could show you to-day; but those lots on Grand ave., in my tract, only lasted a few hours. All sold."

RATES OF SUBSCRIPTION.

THE LOS ANGELES TIMES, published every day, except Mondays, is delivered by carriers at 20 cents a week, or \$2.00 a month, \$7.00 a year, by mail, postpaid, in advance. Single copies, 5 cents.

THE WEEKLY MIRROR (weekly edition of THE TIMES) is published at \$2.00 a year, or \$1.00 for 6 months, in advance.

CORRESPONDENCE solicited from all quarters. Timely local topics and news given the preference. Use one side of the sheet only, write plainly, and send real name for the private information of the Editor.

SUBSCRIBERS, when writing to have the address of their paper changed, should also state the former address.

ADVERTISEMENTS (small, square, classified) 5 cents per line daily, payable at the counter. Long advertisements, by contract, at special rates. \$2.00 a week, \$10.00 a month, \$25.00 a year, in advance. Higher rates for shorter periods.

READING NOTICES, in nonpareil, per line, each insertion, 15 cents. Professional cards, per line, 10 cents per line. Marriage and death notices, per line, 15 cents. Higher rates for shorter periods.

MIRROR ADVERTISING RATES—Transients, per square, per week, \$1.00. Regulars, per square per month, \$1.50. By the line, Professional cards, per line, per month, 25 cents. Reading notices, in nonpareil, each insertion, per line, 15 cents.

CONTENTS.—The general arrangement of the contents of the quarto Times, not including the extra about the Sunday paper, is about as follows, subject to minor modifications in particular cases:

TELEGRAPHIC NEWS—1st and 2d pages.

CITY AND NEIGHBORHOOD NEWS—3d, 4th and 5th pages.

EDITORIALS, GENERAL CORRESPONDENCE, ETC.—4th page.

LETTERS FROM THE PEOPLE, ETC.—4th page.

CONCERNING THE "RECURRING" 4th page.

Real Estate, Hotel Arrivals, Births, Marriages and Deaths also appear upon this page as a rule.

More Houses Needed.

While building in Los Angeles is and has been active, the rush of population makes necessary the early construction of more houses of moderate size and price, suitable for rental or sale to persons of small means. There is to-day a crying scarcity of this class of houses.

While there is now no notable lack of spacious boarding-houses and hotels, suited to the accommodation of visitors and transient population, there is not meet the wants of mechanics, laborers, small tradespeople, and a numerous class of persons of large families and small means who must live by themselves and "keep house."

There is no trouble about the rich providing themselves with houses to their liking, for these they can build; but newcomers who have not the ready means to buy land and build must be provided for, or they will go elsewhere to make homes.

What is needed to meet the immediate demand—a demand which is daily growing stronger—is a class of cheap but comfortable houses, of from four to seven rooms, with all reasonable modern conveniences, costing, say from \$100 to \$250, and renting for from \$15 to \$25 per month, or sold on the installment plan. Such houses, built anywhere within reasonable distance of the central part of the city, are "snapped up" as fast as built, and more of them would suffer the same fate.

Another and a better class of buildings would, we think, also prove a good investment for builders and a great accommodation to families. We mean "flats." Such tenement houses, if well and centrally located, and provided with all modern conveniences, would be in request by many well-to-do families who desire central locations, where attractive and even elegant quarters, with "light housekeeping," may be had without heavy expense. This class of tenements could be made to pay handsome returns on the investment, and more of them are needed here.

We are singularly lacking in building and loan associations for a town of the size of Los Angeles. The time has come when such associations can be operated to an advantage here. Their success elsewhere, when soundly organized and intelligently and honestly managed, has been conspicuous. They have been the means of many a worthy man and woman securing a home, who otherwise would never have reached that happy domestic goal had they depended on purchasing outright or saving up enough money to build. A good way to organize a successful house-building would be for persons having that common object in view to organize, put their savings together, make up a modest little "pot," buy a tract of land to be paid for on the installment plan, subdivide it into house lots, and build thereon, under a single contract, a series of suitable houses, of different sizes, styles and prices, to be sold to the members of the association at fixed prices, determined in advance, or at auction, as might be arranged. The features of this plan are simple and familiar, and need not

be elaborated here. The payments required can be stretched out over any reasonable period of time, making the task of purchasing easy to the purchaser, at the same time that the association and the original seller are rendered perfectly secure and their interest guaranteed.

Such a mode of acquiring a home "beats paying rent all hollow."

Some movement of this kind is highly necessary in Los Angeles. Unless places are provided for people who come here to make their homes and help build up the city and country, they will not stay, but pass us by on the other side. Thus the city will suffer; population will not increase as it should; it may even come to a standstill. All this will affect the price of real estate and other property; in short, it will check the boom and put Los Angeles back when she might just as well be going steadily forward without one refund wave in the tide of her prosperity.

So it becomes the interest of real-estate owners, merchants, and even of speculators to favor measures such as we have outlined. The country cannot live by speculation alone.

"Them Steers."

A late issue of the Texas Live Stock Journal says: "A man is in town looking for 4000 yearlings, for which he is willing to pay \$5 a head. He must have been reading some of the Northern stock papers, which have tried to make the world believe that the country down here was full of stock and nothing to eat. Of this idea he will be disabused before he spends a second night among us. True, there is plenty of stock here for sale, but while they wade around knee-deep in grass they will not be sold for \$5 a head. The yearlings in Southwest Texas are not built that way this season."

In the past four years there has been a very large increase in the number of head of live stock in Arizona. At the time the Southern Pacific Railroad was building through that Territory, and for a couple of years thereafter, the supply was not equal to the demand. Now, however, things are changed, and after supplying all that are needed for home consumption and shipping considerable to California, there still remains a surplus upon the ranges, and there has in the past year been a number of large shipments to Kansas City from as far west as Tucson. These shipments have not been profitable as a rule. A Tucson paper, referring to a recent shipment of three hundred head of beef cattle to that market, states that the result was very unsatisfactory. The cattle averaged 835 pounds, falling short 115 pounds per head of what was expected. The price realized was only \$2.50 per hundred, and after deducting one cent per pound as expenses of shipment, the net returns scarcely paid the cost of raising three-year-old steers.

Arbor Day.

To-day, Saturday, November 27th, Arbor Day will be instituted at San Francisco. It is proposed to plant several thousand trees on Yerba Buena Island. Gen. Howard, Adolph Sutro and Joaquin Miller recently visited the island, in company with a civil engineer, and supervised the digging of 1000 holes, which have since been increased to 5000. In addition, the school children are expected to plant trees at the Presidio, and many citizens at their private grounds. This is a good enterprise, and, now that the first rains of the season have fallen, the trees to be planted will have a chance to take root and grow. It is too late now for any concerted action here in the same direction, but we trust the movement inaugurated at San Francisco will be a hint to the southern people not to let another year slip by without starting a similar movement throughout Southern California, where tree culture is so feasible and forests so much needed. Already much has been done in this direction through individual effort, but more remains to be done. The known influence of forests upon climate and the water supply is now a well-established fact that there is no longer room for argument upon the advantages to be derived from tree culture in a "treeless region," so called. There is necessarily some destruction of native trees constantly going on everywhere in the State, but in the southern counties such destruction ought to be reduced to the minimum, and for every tree cut down two should be planted. It will prove a good investment for individuals and for the public.

THE Republicans have the majority in the Congressional delegations from nineteen States—California, Nevada, Illinois, New Jersey, Indiana, New York, Iowa, Ohio, Kansas, Oregon, Maine, Pennsylvania, Massachusetts, Rhode Island, Michigan, Vermont, Nebraska, Virginia and Wisconsin. The Democrats control the delegations of seventeen States—Alabama, Maryland, Arkansas, Minnesota, Missouri, Mississippi, Connecticut, Colorado, Delaware, North Carolina, Florida, South Carolina, Georgia, Tennessee, Kentucky, Texas and Louisiana.

In the twenty-eight editorials on the telephone case, copied last week by Public Opinion from as many leading newspapers of the country, but few openly advocate the movement made by the government to have the Bell patent declared void on account of the alleged fraudulent method by which it was obtained. This, says the Columbus Dispatch, is significant. If the so-called representatives of public opinion, the editors, correctly represent the

general thought of the people in this case—and we believe, they do—there is a feeling abroad that when a patent has been granted, nothing less than plain fraud or accident is warranted as a movement on the part of the government to undo its own work. It certainly ought not to permit its agents to become the tools of persons or corporations desiring to take the whole or a part of the business built up under patents by resorting to schemes of a very doubtful character to overthrow them.

THE vastness of the British Indian Empire is dimly hinted at in the recent report of the Sanitary Commission for Bengal in which it is incidentally stated that, during the past year, cholera has raged in 50,000 villages, causing 173,767 deaths, while the death-bomb from fever numbered 1,042,042. Altogether 1,600,000 deaths were registered, exclusive of the 30,000 caused by the cyclone. To counterbalance this mortality there were 1,600,000 births.

Upon reading the election returns from California the Democratic Cincinnati Enquirer says: "Our heart is torn with tenderness for Miller, of California, but the cruel fate of war obliges him to let some good Democrat have his seat in the United States Senate." The fact that Miller died many months ago, and that a Democratic Governor appointed his successor seems to have escaped the Enquirer.

NEW JERSEY has demonstrated the importance of one vote. The Democratic member from Passaic county was elected by one vote, and he makes the Legislature of that State Democratic, which will elect a Democratic United States Senator.

A Domestic Episode.

The President sat in his easy chair. With Lamont as close as could be. And the President's wife sat over there with her sewing upon her knee.

Said the President: "Dan, here's a job for you; my head for the problem's too thick. Before you retire I wish you would do a sum in arithmetic."

With twenty-five Congressmen lost this year, which seems to be nearly our fate, where do you retire to, Mr. President?

Dan sat at his table and scratched his head. For the problem puzzled him so. "Maybe, perhaps," he stammered and said.

Then declared that he didn't know.

The sweet little lady over there looked up, but not at her husband. And softly said, with a far-away air, "My teeth will be out by then."

The President looked before him straight. And from under his desk, where, "My teeth will be out by then," I thought they were out long since.

The sweet little lady hung down her head. So busy with some and feels. And blushed, she said, "I was thinking of something else."

MEN AND WOMEN.

The late Count Beust was almost a rival of List in the favor of women.

Mr. Morrison retires from Congressional life as poor if not poorer than when he entered it.

Sleepy Hollow, N. Y., has a widow 14 years of age, who has a 3-month-old baby left to comfort her.

The pany is Mrs. Cleveland's favorite flower, and she has the daintiest table decoration.

Victoria Morosini-Schilling is traveling in Europe with friends, trying to live down the mistakes of the past.

Base ball has been introduced into the Pittsburgh Institute for the physical and mental improvement of the inmates.

The man who dug the grave for three husbands of Mrs. Foster, of Green Bay, Mich., became her fourth husband during the past summer.

Thomas Baldwin Aldrich, who has just been undergoing the ordeal of a birthday anniversary, says a man should either die at 20 or live to be a saint.

A farmer who lives near Santa Maria, Cal., recently discovered a swarm of bees in one of his cracked pumpkins. Before making the pumpkin into pies he took eight pounds of honey therefrom. (Chicago Inter-Ocean.)

CITY POLITICS.

REPUBLICAN CAUCUSES LAST NIGHT IN TWO WARDS.

Miscellaneous Tickets Nominated—A Lively Time in the Second Ward—The Boyce Crowd Quietly Gobbles the Third—Primaries To-Day.

About 150 Second Warders met in caucus in Judge Cheney's courtroom last night. Chas. E. Day was appointed chairman. There was considerable discussion as to whether the present should give their names and addresses as they voted. A good many bums and tramps were observed to be present, and this was suggested as a means to keep them from stuffing the business.

T. J. De Puy spoke very warmly on this point. He noticed that the tramps seemed generally supplied with a cut-and-dried ticket, and protested against their being marched up like cattle to the shambles. His speech was considerably applauded.

The chairman wanted a sergeant-at-arms appointed to keep order. A couple of citizens were nominated, and declined.

Lester Osborne, assessor, was the first to speak, and declared that this was not a put-up job.

Frank A. Gibson's motion that each give his name on voting was lost by a big majority. There were 134 votes cast, almost all being printed tickets, on green paper. It was noticed that the tramps seemed to have two tickets on green paper, one having Lester Osborne's name upon it.

The following ticket was elected: Randolph Miller, C. E. Day, W. Clayton, C. Conley, J. Grimald, M. McManis, J. Ledwith, J. Boyce, J. E. T. Wright, J. H. Hall, James Meredith, Frank Marsh, Joe Manning, Al. Collier, Jacob Searns, A. Smith, B. Levy, J. Skinner, G. S. De Gout.

The chairman suggested the nomination to-night of two Councilmen by the twenty-five delegates just elected. Lester Osborne objected strenuously. He wanted improvements made on the west side of Temple street hill. The chairman said the meeting would be held on the 1st of December.

Walter S. Moore said that the published call made it incumbent on twenty-one delegates to nominate the Councilmen, and they would do so even if the meeting tonight failed.

Lester Osborne persisted in speaking, amid much hilarity, calls to order and motions to adjourn. The chairman had to partly deny his own statement by a real, and a little town in Iowa. It consisted of seventeen persons. Since then the organizer of that excursion has learned of the names of the Councilmen of the ward.

The third ward. Forty-five citizens of the Third Ward met in the Council chamber last evening, and named the following list of delegates to the City Convention to be voted for at today's primaries:

E. L. Stern, J. Kosier, Chas. H. McNally, E. P. Johnson, J. C. Byram, Geo. H. Pike, J. H. Boyce, J. E. T. Wright, J. H. Hall, H. N. Broad, R. B. Miller, J. W. McKinley, H. T. Hazard, Rudolph Ranney, E. C. Burlingame, J. W. H. Book, J. Smith, Chas. Fickett, John Crimmins, Theodore Savage.

Charles H. Johnson was nominated by acclamation for Councilman from the Third Ward.

The caucus went off without any kicks. It was very slim, and the speakers were few. M. H. Boyce said his personal followers were about two to one. Indeed, the personnel of the caucus was fairly good. Cheney's desk with his famous one whose colonization just before the late county convention caused such a riotous and riotous scene.

THE EXCURSION BUSINESS.

How Thousands of Easterners are Brought to California.

The excursion business is one of those that have been developed by the unprecedented growth of Los Angeles. The first persons who made a business of working up excursion parties were Cook & Son, of London, who started in the 30's. Their trips were, at first, confined to the coast, and other summer resorts of England, afterward taking in the Continent of Europe. Their business now includes excursions over the whole world. One can buy a ticket in London around the world, including board and lodging, and stopping at places on the road, so that one knows exactly what the expense will be.

The Southern California excursion business has grown to importance during the past eighteen months. There are now five leading firms engaged in the business in Los Angeles. There are two classes of excursions, the Pullman and the third-class. The latter has become very popular of late, even among persons who can afford the Pullman, and is a Pullman party.

On the third-class excursions they are allowed to make up their beds at any hour during the trip, and take themselves a cup of tea or coffee on the road, and are charged as passengers on a Pullman.

To work an excursion agency requires three or four active men, who must also possess

LETTERS FROM THE PEOPLE.

HORTICULTURAL TALK.

CAHUENGA, Nov. 25.—[To the Editor of THE TIMES.] It is pleasant to see one move in the right direction in the way of producing a good quality of table grapes. The instance referred to is near the Cahuenga Pass, on the left hand side on the road from Laurel canyon to town. It is a vineyard planted 12 or 14 feet apart one way—probably 12x14 between rows. This will give enough room, so that the proper pruning there will be nothing to prevent having good fruit, and fruit that will always sell at the top price. Now that we are coming to the front as fruit producers it is well to do our best, as there is no telling how long before a world's fair may be coming along to demand it.

There is nothing to prevent taking the highest premium for Los Angeles fruits, if the proper steps are taken. Even in apples and peaches, although there has been some complaint as to lack of pronounced flavor in these particular fruits, there are localities where the full flavors of these fruits can be brought out. Before the proper fruit is visited abroad he spent some time in examining the lands suitable for apple, peach and pear culture in this and adjoining counties. Cherries are another fruit that it has been thought could not be produced to perfection. Wild cherries, currants, gooseberries and wild roses (the apple family) grow in profusion at altitudes of 2000 feet, and even as low as 1500 feet in this county. This is a certain indication of proper localities for the cultivation of the same varieties. Just as soon as people disabuse their minds of the fallacy that the plains are the only grounds upon which to grow fine fruits, we shall have the best in the world, for the conditions are undoubtedly here for their production. Irrigated lands will not do it! That is certain.

IN THE CATSKILLS.

Panther, Bear and Deer Tracked and Killed. By the assistance of the Catskill mountains some years ago, but latterly they have been seen so seldom that it was believed they were almost, if not entirely, extinct. On Sunday morning, several sheep of a flock belonging to Philip Dedrick, were found killed and more or less mangled, and this taken in conjunction with fresh footprints which did not correspond with those of any animal familiar to the neighborhood, determined Mr. Dedrick on a pursuit. A party was hastily formed and, accompanied by several dogs, started in quest of the victim. After a hard tramp of several miles through the snow the hunters perceived the dogs engaged in a fierce struggle with a full-grown male panther. The place of encounter was a fine red fir tree, on the edge of a cliff—was not accessible to the hunters and so excited were the dogs that it was impossible to call them off in order to fire at the panther without wounding it. The animal killed one of his assailants and would probably have escaped, so cowed were the others, but for the tenacity of a bull-dog which clung to him so desperately that it was impossible to shake him off, and they finally rolled over the cliff, when a shot killed the panther. The dog had so seriously injured in the struggle that it was found necessary to kill it also.

On Friday last, in the region of the Dry brook, in the Catskills, two boys, Orrin Todd and Frank Fairben, tried a bear and shot him. The carcass weighed 250 pounds. On the same day two men and boys in Sullivan county started a fine red deer near Claryville, chased it many miles, and finally one of the boys brought it down with a revolver. Deer are scarce, and it is a long time since any have been caught in that region.

Gen. Early's Escutcheon.

"I see that Gen. Sheridan has a new escutcheon, on which is recorded, among others, his Shenandoah valley victories."

"That will be a noble treasure for his descendants."

"The worst of it is, Sheridan's move in this direction has been Early. He has advertised for sealed proposals, and is bound to have one."

"I think I will try my hand at it."

"A lottery wheel rampant, for one thing, and a group of ticket-holders couthcut."

Domopathic Physicians.

A. G. COOK, M. D., HOMOEOPATHIST. 214, Spring street, between Main and Second. Hours, 10 to 12 a. m.
